

Enhancing Gensuite Reg Tracker™

Product Regulatory Updates

Are you responsible for managing product compliance for your global operations?

Does your company put products on the market in China?

Are the acronyms REACH, RoHS, and TSCA part of your job vocabulary?

Do you need to implement a take back program for your products in Brazil?

Look no further than GENSUITE PRODUCT REG TRACKER READY!

WHY PRODUCT REG TRACKER READY

RELIABLE SOLUTION FOR SIMPLIFYING PRODUCT COMPLIANCE

- ▶ Keep your hand on the pulse of product regulatory updates that go beyond operational EHS issues
- ▶ Eliminate the need to research multiple publications in different languages
- ▶ Receive monthly updates prepared by experienced consulting experts at Specialty Technical Consultants, Inc. (STC), a Gensuite Alliance Partner <http://www.specialtytechnicalconsultants.com/>
- ▶ Experience ease of use with a format and structure that mirrors Reg Tracker READY

UNDERSTAND HOW YOUR GLOBAL OPERATIONS ARE IMPACTED

- ▶ Includes jurisdictions that are particularly active and influential in regulating product issues
- ▶ Brazil, China, European Union, South Korea, US Federal + California
- ▶ Clearly defined scope of topics, including product design, placing on the market, and end of life requirements

CUSTOMIZABLE! Expand the scope of Product Reg Tracker READY to include...

- ▶ Product-specific regulatory updates that are unique to your business
- ▶ Additional jurisdictions and topics, such as import/export requirements or product quality issues
- ▶ Proposed legislation and policy issues to better understand the regulatory pipeline
- ▶ EHS topics through Reg Tracker or Reg Tracker READY for a comprehensive compliance solution
